CENTRAL INTELLIGENCE AGENCY

Key to Sketch No. 2 of Attachment.

1. Light metal foundry about 200 meters long. The building also holds supplies.
- 2) Sheds for assembling and testing vehicles.
- 3)
- 4)
- 5) Fitters' shops.
- 6)
- 7) Machine shops.
- 8)
9. One-story building housing a joiners' shop.
10. One-story administrative building.
11. Living quarters for works' guard and drivers.
12. Garage.
13. A large square which is partly roofed. Here vehicles and engines are dismantled and the parts sorted before being distributed among the shops in the works.
